From a US$100 billion pledge to a US$1 trillion addressable value

A results-based delivery vehicle for the COP31 cover decision · Pavilion proposal · 12 November 2026, Antalya

To: To: the COP31 Presidency, the President of Negotiations (Australia), and all country pavilions — with a specific request to the United Kingdom, Türkiye, Spain, Germany, Japan and Iran delegations

One-line ask: one sentence in the COP31 presidency-led cover decision (20 November) recognising results-based waste-to-value finance as an implementation pathway toward the agreed US$1.3tn/yr goal — no new fund, no new obligations, no reopening of agreed text.

Implementation vehicle

- **Vehicle:** Waste-to-Value Results Facility — a thin, voluntary, results-based unit hosted by an existing accredited institution (MDB, UN agency programme or neutral non-profit SPV) with an independent fiduciary agent.
- **Pays only against:** independently verified tonnes newly collected & manifested, organic waste diverted from landfill, CO2e methane avoided, and verified virgin-material substitution; a ceiling price per verified tonne.
- **Funding (catalytic only):** EPR fees, methane/carbon credit revenues, green public procurement, blended finance, XPRIZE-style milestone prizes.
- **Governance:** Parties + cities + informal-worker cooperatives + independent MRV auditor + civil society; public payment ledger; annual report to the UNFCCC Standing Committee on Finance.

Sixty-second pavilion pitch

In 2009 the world pledged 100 billion dollars a year and delivered it two years late. Today the agreed goal is 1.3 trillion a year by 2035, while new pledges here are down about 70 percent. We are not asking for a trillion-dollar budget. Waste already represents a trillion-dollar-scale economic value — but most of it is uncollected, unweighed and unverified. Our proposal is a small, voluntary results-based facility that pays only against independently verified tonnes and methane avoided, counts those flows toward the 1.3 trillion goal, and asks for one sentence in the cover decision being drafted now. Would your delegation nominate a focal point to review the draft?

Independent draft — not a UN position, not endorsed by XPRIZE, the COP31 Presidency, any government or company. No fund exists, no money pledged, no submission filed, no email sent. Only a Party (government) can file a formal UNFCCC submission.

Pavyon için 60 saniyelik sunum

2009'da dünya yılda 100 milyar dolar taahhüt etti ve bunu iki yıl gecikmeli teslim etti. Bugün üzerinde anlaşılan hedef 2035'e kadar yılda 1,3 trilyon dolar; oysa burada açıklanan yeni taahhütler yaklaşık %70 daha az. Biz bir trilyon dolarlık bütçe istemiyoruz. Atık hâlihazırda trilyon dolar ölçeğinde bir ekonomik değer, fakat büyük bölümü toplanmamış, tartılmamış ve doğrulanmamış. Önerimiz yalnızca bağımsızca doğrulanmış tonaj ve önlenen metan karşılığında ödeme yapan küçük, gönüllü, sonuç temelli bir fasilitesi; bu akışlar 1,3 trilyon dolar hedefine sayılıyor ve şu anda yazılan karar metninde tek bir cümle talep ediyoruz. Heyetiniz taslağı incelemek üzere bir irtibat noktası belirler mi?

Bağımsız taslak — BM tutumu değildir; XPRIZE, COP31 Başkanlığı, hiçbir hükümet veya şirket tarafından onaylanmamıştır. Fon yok, taahhüt edilmiş para yok, resmî sunum yok, gönderilmiş e-posta yok. Yalnızca Taraflar resmî UNFCCC sunumu yapabilir.

Intervención de 60 segundos para el pabellón

En 2009 el mundo prometió 100.000 millones de dólares al año y los entregó con dos años de retraso. Hoy la meta acordada es 1,3 billones anuales para 2035, mientras los nuevos compromisos aquí caen cerca de un 70%. No pedimos un presupuesto de un billón: los residuos ya representan un valor económico de esa escala, pero en gran parte no se recogen, no se pesan y no se verifican. Proponemos una estructura pequeña, voluntaria y basada en resultados que paga solo contra toneladas y metano verificados de forma independiente, computa esos flujos hacia la meta de 1,3 billones y pide una sola frase en la decisión de cobertura que se redacta ahora. ¿Designaría su delegación un punto focal para revisar el borrador?

Borrador independiente — no es posición de la ONU ni está respaldado por XPRIZE, la Presidencia de la COP31, ningún gobierno ni empresa. No existe fondo, dinero comprometido, comunicación oficial ni correo enviado. Solo una Parte puede presentar una comunicación formal.

60-Sekunden-Ansprache für den Pavillon

2009 sagte die Welt 100 Milliarden Dollar pro Jahr zu und lieferte sie zwei Jahre zu spät. Heute lautet das vereinbarte Ziel 1,3 Billionen pro Jahr bis 2035, während die neuen Zusagen hier rund 70% niedriger liegen. Wir fordern kein Billion-Dollar-Budget: Abfall stellt bereits einen wirtschaftlichen Wert dieser Größenordnung dar, wird aber überwiegend nicht gesammelt, nicht gewogen und nicht verifiziert. Unser Vorschlag ist eine kleine, freiwillige, ergebnisbasierte Einheit, die nur gegen unabhängig verifizierte Tonnen und vermiedenes Methan zahlt, diese Ströme auf das 1,3-Billionen-Ziel anrechnet und einen einzigen Satz in der jetzt entstehenden Cover Decision erbittet. Würde Ihre Delegation eine Ansprechperson für die Prüfung des Entwurfs benennen?

パビリオン用60秒スピーチ

2009年、世界は年1,000億ドルを公約し、2年遅れで実行しました。いま合意済みの目標は2035年までに年1.3兆ドルですが、ここでの新しい公約は約70%減少しています。私たちが求めているのは1兆ドルの予算ではありません。廃棄物にはすでにその規模の経済価値がありますが、その多くは回収されず、計量されず、検証されていません。提案は、独立検証されたトン数と回避メタンに対してのみ支払う小さな任意の成果連動型枠組みです。そのフローを1.3兆ドル目標に算入し、現在起草中のカバー決定に一文を求めます。草案を審査する担当者をご指名いただけますか。

独立草案 — 国連の見解ではなく、XPRIZE・COP31議長国・いかなる政府・企業からも承認されていません。基金・約束資金・正式提出・送信メールは存在しません。正式提出は締約国のみ可能です。

Do not attribute to UN	Independent analytical estimate of TOTAL global climate investment needs by 2035 — NOT a UN target	US$8tn/yr~	**8**

متن ۶۰ ثانیه ای برای پاویون

در سال ۲۰۰۹ جهان تعهد کرد سالانه ۱۰۰ میلیارد دلار بدهد و آن را با دو سال تأخیر تحویل داد. امروز هدف توافق شده ۱/۳ تریلیون دلار در سال تا ۲۰۳۵ است، در حالی که تعهدات تازه اینجا حدود ۷۰ درصد کمتر شده. ما بودجه یک تریلیون دلاری نمی خواهیم؛ پسماند هم اکنون ارزش اقتصادی در همین مقیاس دارد، ولی بخش بزرگش جمع آوری نمی شود، توزین نمی شود و راستی آزمایی نمی گردد. پیشنهاد ما نهادی کوچک، داوطلبانه و نتیجه محور است که فقط در برابر تن و متان مستقلاً تأیید شده پرداخت می کند، آن جریان ها را به حساب هدف ۱/۳ تریلیون می گذارد و تنها یک جمله در تصمیم پوششی ای که همین حالا نوشته می شود می خواهد. آیا هیئت شما یک نقطه تماس برای بررسی پیش نویس معرفی می کند؟

پیش نویس مستقل — موضع سازمان ملل نیست و از سوی XPRIZE، ریاست کاپ ۳۱، هیچ دولت یا شرکتی تأیید نشده است. صندوقی، پول تعهد شده، پیشنهاد رسمی یا ایمیل ارسال شده ای وجود ندارد. فقط کشورهای عضو می توانند پیشنهاد رسمی ثبت کنند.
